**POUŽITÍ**

Krátké oboustranné vybrušované vrtáky s krátkou šroubovicí se samostředícím ostřím doporučené k vrtání do tenkostěnných materiálů, především do plechu. Uplatnění hlavně při nýtování pro klempířství, autokarosářství apod.

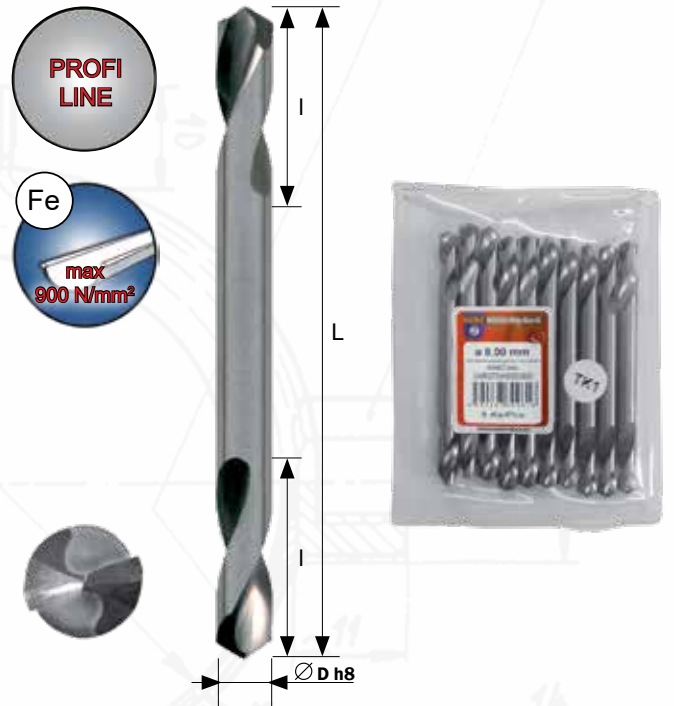

**USE**

Short, double-end fully ground twist drills with short helix and self-centering cutting edge are recommended for drilling of thin-walled materials, especially the sheet. These drills are applied for riveting and body building.

**VERWENDUNG**

Kurze, beidseitige ausgeschliffener Bohrer mit einer kurzen Wendel und einer selbstzentrierenden Schneide werden zum Bohren von dünnwandigen Werkstoffen, vorzugsweise von Blechen, empfohlen. Sie werden hauptsächlich bei Nietung und Karosseriearbeiten u.Ä. verwendet.
